The FAULTLESS Holder.

FOR

Brooms, Dusters, Parasols, UMBRELLAS, &c.

This article needs only to be seen to be appreciated above all others for these purposes.

They are made on scientific principles of Spring Wire and will take in large or small handles. When two or more are placed on narrow strips of stained boards they form handsome racks, in which shape many prefer them, others prefer to station them around those parts of the house most handy and suitable. Every family should have one of these holders for each Broom, Umbrella, Duster, &c. in the house. They have a nice appearance and look well in room, doing away with the old fashioned string tied to handle, which is always breaking, and the old rusty nail which does not look well even in a barn.

They are quickly and easily fastened up, as but one screw is necessary. They are neatly put up in boxes of a quarter gross with screws.

They are the cheapest article for the purpose ever offered; and still the best. Sample by mail 10 cents.

Send order, or send for sample, and you will want more. Our canvassers here are doing exceedingly well.

Address

**HAWKEYE NOVELTY COMPANY,
KEOKUK, IOWA.**

[Small broadside or handbill]: The Faultless Holder. For Brooms, Dusters, Parasols, Umbrellas, &c. ... Hawkeye Novelty Company, Keokuk, Iowa
Keokuk, Iowa: Hawkeye Novelty Company [circa 1895?] \$75

Handbill. Approximately 5½" x 9" (138 x 227cm.). Very faint horizontal folds else fine. Advertisement for wall-mounted hangers, apparently a precursor company to another of the same name that later manufactured coin-operated arcade and gumball machines, the typography suggests that this handbill predates that company (founded in 1931) by several decades. Not in OCLC. [BTC#394739]
