# TESTIMONIALS

Thousands of dollars have been offered for the commercial use of the great names bearing the testimonials herein reprinted. In almost every case they have refused. The reason is obvious. Men and women who achieve fame cannot risk their reputations in the advertising of commercial products in which they do not believe. NOT ONE PENNY HAS BEEN PAID FOR THESE TESTIMONIALS OF THE HUNT-WILSON SYSTEM. Every word in them is true. These famous people were delighted to endorse our system of health-building because they know its value from their own personal experience and you know, too, how much it can do for YOU!

TO WHOM IT MAY CONCERN:

Gus Wilson has trained and conditioned champion athletes and people in the business world for many years. I, personally, have trained for many of my important fights at Gus Wilson's Health Farm and Training Camp at Orangeburg, New York.

Gus is a great physical trainer - a man who knows how to condition people - a good dietician and an expert masseur. He has helped me greatly in my successful comeback campaign.

I recommend Mr. Wilson highly to anybody in want of physical culture and health improvement.

Very sincerely yours,
