*[Cover title]: The Buffalo 1938*

(Rocky, Oklahoma: Rocky High School?) 1938

\$500

High school yearbook. Quarto. 52 mimeographed leaves printed rectos only, brad-bound into printed and embossed black wrappers. Illustrated with tipped-in gelatin silver photographs, as issued, and with illustrations. Owner's name and "coloring" on first (blank) leaf, small tears on the yapped edges, some soiling and notes in the text, but overall a pleasing, very good copy. Relatively primitively produced yearbook from a small (Senior Class of 22 students; current population of 174) Western Oklahoma dust bowl town, with commensurately small student body. Illustrated with several tipped-in photos of faculty, classes, dramatic productions, athletes, etc. A few individual student photos affixed, and autographs in a designated place in the rear of the book. An attractive artifact with a very pleasing folk art feel.
