[Cabinet Photographs]: Hunting and Hunting Lodge Photos
[circa 1915]

\$550

12 gelatin silver cabinet photographs. Images are 3¼" x 5½", each mounted on 5¼" x 7½" thick card stock. The images are uncaptioned, but provenance suggests they are from Pennsylvania or New York State. One image has a smear in the emulsion in the bottom left corner else they are near fine. The well-composed photographs depict a group of men either in the field or in or around a hunting lodge. The men are depicted with guns, dogs, carcasses of small animals, or sleeping or eating in groups. A cohesive and subject specific group of unusually nice images. [BTC#400095]
