## Margaret Sanger

### *An Autobiography*

London: Victor Gollancz Limited 1939

\$500

First English edition. Publisher's archive copy, so stamped on the title page, slight bump on top of the front board, else fine in bright, near fine copy, initialed in pencil on the front panel, and with a couple of tiny tears. Extremely uncommon edition, especially in jacket, much more so than the admittedly scarce true first American edition. [BTC#400828]
