

Mrs. Sheal

[Cabinet Card]: Public Health Nurse

Houston, Texas: Anderson Studio circa 1895

\$300

A sepia-toned cabinet card measuring 4" x 6½" with captions on the verso with the logo for Anderson Studios in Houston, Texas. Some rubbing and toning thus very good. A cabinet card from a public health nurse in Houston, Texas. On the verso of the photo it reads, "Mrs. Sheal - Howard's nurse in Houston, 81 the day Howard was born." The photo shows a well dressed woman in a hat holding her nurse kit in one hand and an umbrella in the other. Sheal appears to have been a home visit nurse in the Houston area and this photo was owned by the family of a baby she delivered.

A wonderful image showing a proud medical professional from Texas in the 1890s.
