

*[Loose Photograph]: Nurses in Operating Room*

circa 1900

\$150

Sepia-toned silver gelatin photograph measuring 3½" x 4½" mounted to a cream colored board measuring 4½" x 5½". Very good photo with some rubbing and slight edgewear. An image of three turn of the century nurses in an operating room. The women are over a basin of water and two of them appear to be practicing bandaging technique on the third. Two of the women are staring at the bandaging while the other is looking at the camera. A nice action shot of nurses working in a hospital.
