

## *[Loose Photographs]: Operating Room*

circa 1940s

\$300

Two sepia-toned pictorial photographs measuring around 3½" x 5½". Near fine with some slight rubbing. Two pictorial photographs depicting doctors and nurses operating on two separate patient around 1940.

One of the photos appears to be earlier than the other, but both show scrubbed doctors and nurses in the middle of a procedure with surgical masks and head coverings. An interesting pair of images capturing medical professionals mid-surgery.
