## Reflexology Charts. Texas Chiropractic College. San Pedro Park, San Antonio, Texas

San Antonio: Charles B. Loftin, D.C. 1944

\$1800

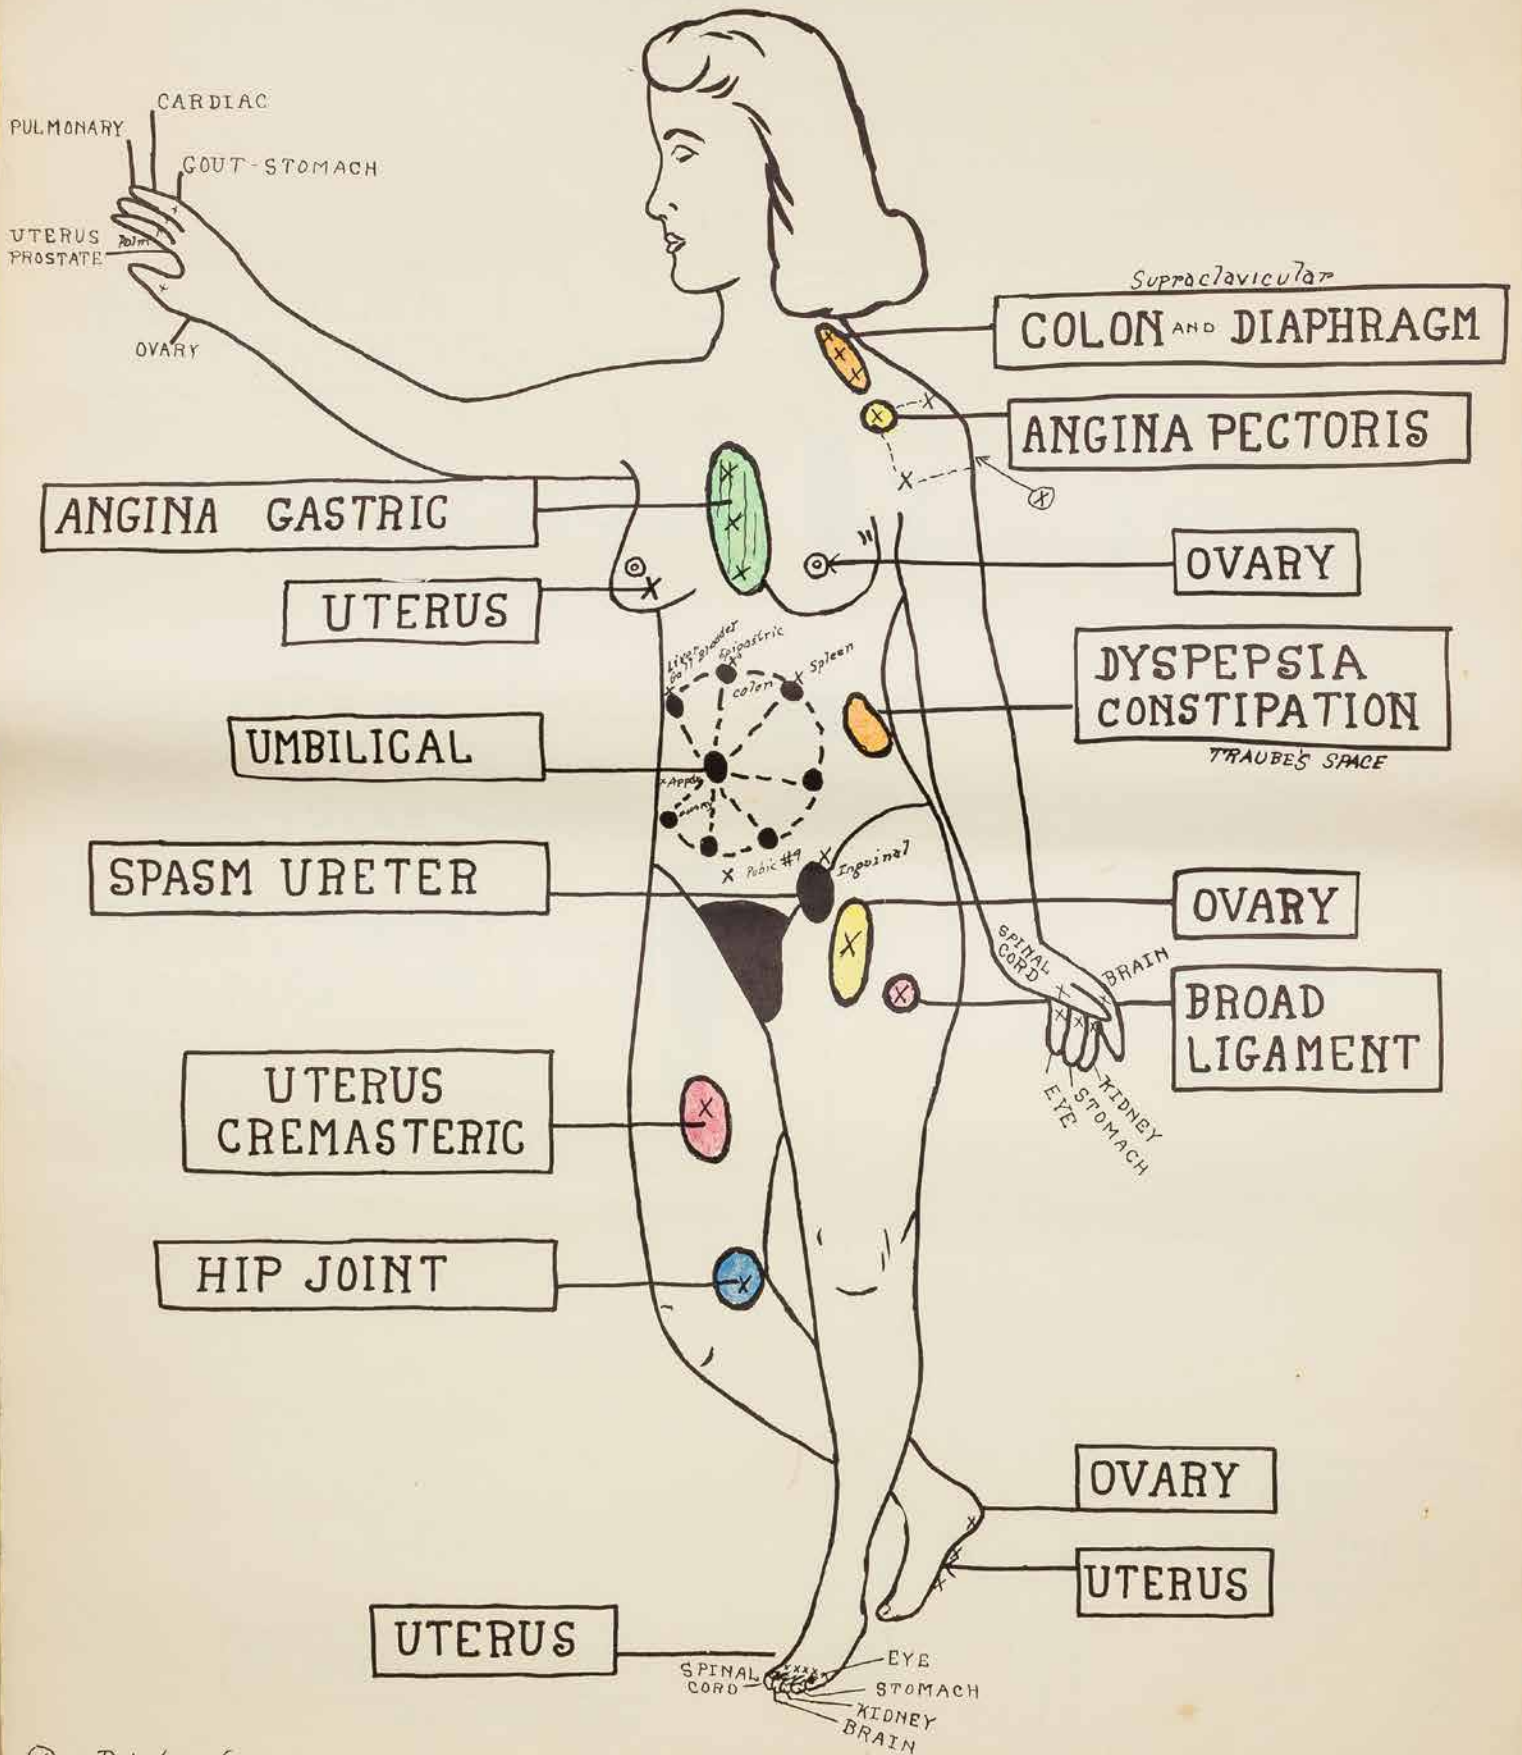

Large charts, metal ring-bound along the top edge. Approximately 22" x 32". Title leaf and 24 mostly illustrated charts (irregularly paginated and possibly missing p.[17], but we believe rather that it is complete - Loftin seemed lackadaisical about numbering the charts, with several unnumbered and possibly out of order). Illustrations by Loftin are mostly at least partially colored by hand, almost certainly by the artist. Corners a bit worn, a small tear on the first leaf, a small crease on another but overall very good or better. Title leaf has 29 photographic vignettes from the campus and school. One of the oldest chiropractic colleges in the country, the school moved to Pasadena, Texas in 1965. Presumably this was prepared for classes there and is likely very uncommon. OCLC locates three or four copies of a booklet by Loftin, but no copies of this chart. [BTC#423012]
