Godsoe

[Wood carving, supplied title]: Jim Crow

[New England?: circa 1880?]

\$900

Relief wood carving of a dancing, clownish African-American male. Approximately 9¼" x 12¼". Signed "Godsoe Del." in lower right corner. Dark wood stain likely applied by the artist. A folk art relief carving with integral carved frame on a light, soft wood, possibly on spruce or another species of pine. The be-hatted grotesque figure capers with small cabins in the distant background. We could find nothing about the artist, but surmise it was created in the late 19th century. [\[BTC#425783\]](#)
