The Water Gators in Hell

New York: Vantage Press (1977)

\$100

First edition, Octavo. 72pp. Owner's small name front fly, else fine in about fine price-clipped dustwrapper with subtle sunning at the spine. Vanity press issued epic satiric poem documenting the progress of the principals of the Watergate scandal into Hell, reminiscent of Dante's *Inferno*, by a self-described "... super spacey Scorpio from Middleburg, Virginia... who ekes his living as a pot-boy in Georgetown bars." OCLC locates five copies. [BTC#434290]
