

Maxfield Parrish

The Prince. Jig of Jigs Puzzle. Number Two

[No place]: The American News Company (No date - circa 1925) **\$475**

Jigsaw puzzle. Over 250 pieces (complete). Puzzle is shrink-wrapped onto acid-free board (although we can break it down into component pieces if you want to put it together yourself), and is accompanied by the original box. Box is a little soiled, but otherwise about fine. This is Number Two in a series intended to come out every week. We've seen Number One (also by Parrish) but do not know for how long the series ran.
